Washburn's Quality Grass Seed

Sow about one pound to each 400 square feet when a new lawn is being started. If an old lawn is to be renovated, about half that quantity may be used.

If seed is to go by mail, add 8c for the first lb. and 1c for each additional pound for points within 150 miles of Bloomington.

FANCY KENTUCKY BLUE GRASS. The foundation of all first-class lawn mixtures; some people prefer to use it alone.

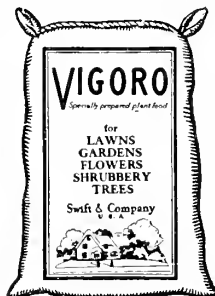

SUNNY PLACE MIXTURE. This is the best blending of various grasses to succeed in sunny situations. It produces a heavy turf in a short time.

SHADY PLACE MIXTURE. In spots that the sun does not reach Shady Place Mixture is most successful as it is made up of grass varieties which prefer the shade.

Each of the above: 50c per lb.; 5 lbs. \$2.25; 10 lbs. \$4.25; 25 lbs. \$10.00; 50 lbs. \$19.00; 100 lbs. \$37.00.

WHITE DUTCH CLOVER. Valuable for mixing with Kentucky Blue Grass if you care to have more clover in the lawn. Pound 65c; 5 lbs. \$2.75; 10 lbs. \$5.25; 25 lbs. \$12.75.

To Beautify Your Lawn Use

Washburn's Perennials

Hardy Flowers for Spring Planting

A perennial garden is most interesting because of its change from week to week.

By careful selection there can be a variety of colors from spring until fall.

Perennials give large returns for a small first cost and a minimum of labor.

As a general rule perennials with large fleshy roots like Oriental Poppies and Peonies are best left undisturbed for years, while others like Phlox, Delphinium and Coreopsis are better if dug and divided every two or three years, or new plants grown from seed.

Varieties marked with (*) are especially desirable for rock garden planting.

The following perennials are offered this Spring at 25c each; \$2.50 per dozen, except as noted:

ACHILLEA FILIPENDULINA. Parker's variety. 3 feet. June and July. Yellow.

Washburn's Quality Grass Seed

Sow about one pound to each 400 square feet when a new lawn is being started. If an old lawn is to be renovated, about half that quantity may be used.

If seed is to go by mail, add 8c for the first lb. and 1c for each additional pound for points within 150 miles of Bloomington.

FANCY KENTUCKY BLUE GRASS. The foundation of all first-class lawn mixtures; some people prefer to use it alone.

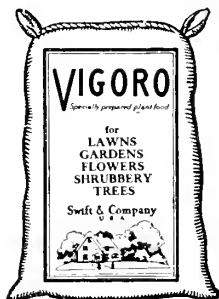

SUNNY PLACE MIXTURE. This is the best blending of various grasses to succeed in sunny situations. It produces a heavy turf in a short time.

SHADY PLACE MIXTURE. In spots that the sun does not reach Shady Place Mixture is most successful as it is made up of grass varieties which prefer the shade.

Each of the above: 50c per lb.; 5 lbs. \$2.25; 10 lbs. \$4.25; 25 lbs. \$10.00; 50 lbs. \$19.00; 100 lbs. \$37.00.

WHITE DUTCH CLOVER. Valuable for mixing with Kentucky Blue Grass if you care to have more clover in the lawn. Pound 65c; 5 lbs. \$2.75; 10 lbs. \$5.25; 25 lbs. \$12.75.
